Drawstring Bags

Drawstring bags are given to each family who comes through the clinic to put their toothbrushes, toothpaste, glasses, vitamins, and medications in. It is estimated that we will need 500 each year.

Here is a link to a great pattern for drawstring bags, for those who would like to use it:

http://www.lovelydesign.com/downloads/lovely_giftbag_pattern.pdf

They can be made of any material, and the size can vary, but should be about the size of a gallon-sized Ziploc bag.
